PhotoVidShow is an incredible application for creating professional but completely customisable photo and video slideshows that can be either burnt to a DVD or Blu-Ray disc and viewed on TV or created as a video file for sharing online.

PhotoVidShow is designed to be user friendly, so absolutely no previous knowledge is required in order to create stunning

slideshows.

PhotoVidShow can:-

- Burn your slideshow to a DVD or Blu-ray disc with interactive menus that can be played in a stand-alone player and watched on TV.
- Create a HD video (720p / 1080p), transferred to a USB stick, inserted into the TV USB slot and played on TV
- Create a video file that can be played on a computer, tablet or smart phone
- Create a video that can be shared online including youtube or facebook

Rapidly build up your slideshow by adding photos and video clips to the storyboard. PhotoVidShow will automatically add a pan and zoom effect to your photos giving it motion and looking professional - Or why not use one of the slide animations to really make your slideshow stand out.

PhotoVidShow offers extensive features allowing you to completely customise your slideshow. Why not add transitions, stylish text, clip-art, motion and filter effects like an old film effect. Or why not add a vignette border to your slides. When mastering a disc, PhotoVidShow has a fully editable disc menu editor with a selection of themes to choose from.

Bring your slideshow alive with a background soundtrack - simply add your favourite music tracks to the storyboard.
PhotoVidShow also allows you to record your own narration.

This super easy to use application is perfect for making that memorable slideshow.
